Dear Elizabeth,

Thank you for your email, and the work of OFF.

Other than my personal home, I have no pecuniary or related party business associations that would prevent my continued support of the issues raised.

I keep membership of local community groups at nil so that I can act in all groups' interests, though I was a member of the Kogarah Concert Band for over 25 years and Hon SDect of the Hurstville Resident's Assn between 1991 and 2016, and briefly, a Trustee for the Peakhurst School of Arts where I use to look after the grounds.

In respect of the survey I am supportive of all initiatives ( though EV battery disposal is a concern) and I pledge to establish a significant tree register in the first year delivery program and operational plan.

I have personally intervened on numerous TPO matters as a private citizen reporting companies that fail to have or produce council permission. Not that Council has ever chased these reports up?

I have opposed the redevelopment of the Oatley Bowling Club and attach correspondence re Glenlee.

My inside knowledge and over 30 years experience in all facets of local government administration will enable me to be a doer and negotiate staff impasses.

As has been noted, I am the only one that plays by the rules - as poorly administered by the NSWEC as they are!

Sincerely, G J Briscoe-Hough

I have been doing this since 1991 when I commenced as the Hon Secretary of the former Hurstville Residents Association, sadly, insufficient electors take the time to sus out the fake party backed or single issue groups.

I trust below correspondence signals not only my support for Glenlee, but the administrative capacity to see it through.

You need people like me on council who know the procedures that bureaucrats hide behind! I am a specialist Senior Advisor on Governance in Local Government, a skillset that is sorely needed locally.

Despite detractors saying I have been in absentia, I have been actively using my local government knowledge and experience to continue to work behind the scenes for better community outcomes.

I trust below correspondence signals not only my support for Glenlee, but the administrative capacity to see it through.

You need people like me on council who know the procedures that bureaucrats hide behind!

**Johnson Property Group Pty Limited v Lake Macquarie City Council (No 2) [2020] NSWLEC 42**, has implications for the rejection of Das especially where Council property and consent is involved...

Did Council give (and can it retract) consent to access?

Something to consider ? Regards, Greg Briscoe-Hough
