Friends of Glenlee Incorporated will be holding a meeting of members on Wednesday 23 March at 7.30 pm.

The committee believes it is important that we have the chance to get together given the current proposed sale of Glenlee.

At the meeting, we will give you an update of what we know about the sale and give you the chance to discuss campaign strategies.

Suggestions are:

- * further letters and emails
- * proposed meetings with other state and federal politicians and candidates
- * a Federal election candidates forum
- * more social media strategies
- * media events

We hope you will have other suggestions that will engage and encourage effective action at this important time.

If you are not a member, or have friends/neighbours who are not currently members, then we encourage you or others to join Friends of Glenlee before the meeting. Go to the website: www.saveglenlee.com
